

Satake Group Flour Milling Conference Held in China 2012

November 2012. Satake held their annual international flour milling conference at Satake Manufacturing (Suzhou) Co., Ltd in China. Previous conferences have been held in USA, Japan and South Korea.

Satake is a world leader in the grain processing industry, manufacturing and selling grain processing machinery, analyzing equipment and optical sorters. The

flour milling conference is a forum for Satake group companies to discuss and exchange views on all aspects of the milling business including research and development, manufacturing, marketing and service. The goal of the meeting is to identify the challenges to be addressed and the strategies required to reflect the demands of Satake's customers.

The delegates toured the Satake China factory which is located in the high-tech industrial zone of Suzhou. The company employs more than 250 people and covers an area of 60,000 m².

The plant manufactures flour milling, rice milling and optical sorters.
